PRESS RELEASE

Reliable Camping Gear Announces Availability of Canopy Secure

The Patent-Pending “2 in 1” Shade Canopy Leg Weighting & Merchandising Solution

Phoenix AZ— September 4, 2019 Today, Reliable Camping Gear announced the immediate licensing availability for Canopy Secure. The company’s shade canopy leg and merchandising solution provide an innovative method for securing and weighting shade canopies, with merchandising loops, and a vertical banner display features. “Canopy Secure addresses the need and weighting requirements to stabilize shade canopies for millions of Campers, Festival and Farmers Market vendors, youth sports and tailgaters. Our canopy leg weights attach to the upper leg frame and hang vertically. The vendors we’ve shown it to, love it, as it provides as they said, “It’s a “2 in 1” a weighting and merchandising solution.” We tested the weight up to twenty-eight (28 lbs.) pounds per leg, and meets most festival vendor canopy weight requirements.,” said Jeff Davis, Co-Founder & Product Designer, at Reliable Camping Gear.

Availability

Canopy Secure is available for licensing immediately. The company has a full line up of Camping and Canopy weighting product designs available for licensing.

###

Company Information

Reliable Camping Gear designs accessory products for the RV, Camping, and Shade Canopy markets. Our patent-pending product designs are focused on consumer safety, use case innovation to protect, secure, and stabilize camping equipment and accessories in inclement weather, and to enhance the outdoor experience.
